

CAC Questions/Answers

September 6, 2017

What surprised you about the Levi Leonard Elementary School facilities?

- Modular walls in 1970's section
- Radiant heated ceilings
- Finishes (paint, flooring, etc.) colors
- Age of older boiler – has lasted 50 years+
- Air conditioning units in windows
- HVAC as whole
- Very well maintained for age of the building
- Traffic flow through corridors and exterior with vehicles/buses
- Lack of long term master plan

What concerns do you have or what needs to be upgraded at the Levi Leonard Elementary School facilities?

- Modular walls in 1970's section
- Lighting
- HVAC including air conditioning
- Doors & windows
- Restrooms
- American with Disabilities Act (ADA)
- Acoustics between classrooms and corridors
- Interior finishes
- Security – entrance and exterior (cameras)
- Radiant heated ceilings
- Traffic flow interior and exterior
