- Minutes were approved by committee

Previously Established Goals:

- Terrie noticed Levi's data is not included – still waiting on completion of testing
- Scott reminded team that the Action plan is a working document
- Melissa questioned if we hoping to improve literacy in math?
- Do we have a goal that encompasses best practices and use the data as a subset measurement?
 - Indicators of goals would be data
 - Should we hire somebody to do an audit of our math and science?
 - Scott explained that staff knew of the shortcomings with English prior to the auditor, but the audit helped push resources/PL
 - Jason explained that the Big Ideas curriculum 6-12 is a way to move in the right direction to have a clearly defined curriculum
 - Terrie reminded group that we are always reflecting on best practices
- HS teachers are slowly rolling out RAAD training
- Forward Exam Data:
 - Math:
 - 45% of students are above 65th percentile
 - 63% of our students are above the 50th percentile
 - ELA: 1st in conference two years in a row
 - We are impressively higher than all other districts in our conference
 - Science/Soc St. : Data is deficient
 - Science :
 - Moving forward with Pearson Science curriculum K-5
 - McGraw for Science 6-8

- Soc St: Starting pilot process now
- Discussed the surprising correlation between STAR data and Forward results and STAR data and ACT results
- Meet next time to do a data retreat and determine these answers
