INDEPENDENT AUDITOR'S REPORT

To the School Board
Evansville Community School District
Evansville, Wisconsin

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business activity, each major fund, and the aggregate remaining fund information of Evansville Community School District (District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activity, each major fund, and the aggregate remaining fund information of the Evansville Community School District, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and schedule of funding progress on pages 4-11 and 41-43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Evansville Community School District's basic financial statements. The combining general fund financial statements, the combining nonmajor fund financial statements, and the agency fund schedule of changes in assets and liabilities are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the *State Single Audit Guidelines*, and is also not a required part of the basic financial statements.

The combining general fund financial statements, the combining nonmajor fund financial statements, the agency fund schedule of changes in assets and liabilities and schedule of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining general fund financial statements, the combining nonmajor fund financial statements, the agency fund schedule of changes in assets and liabilities and schedule of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 1, 2014 on our consideration of the Evansville Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

EVANSVILLE COMMUNITY SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2014

The discussion and analysis of the financial performance of the Evansville Community School District (District) provides an overview of financial activities for the fiscal year ended June 30, 2014. The analysis focuses on school district financial performance as a whole. Efforts have been made to provide comparison to prior year data when such data is available. It should be read in conjunction with the District's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

The District's government-wide financial statements reflect the following:

- Total net position of the District increased to \$5,844,441 or 60% at June 30, 2014. This is attributable to debt reduction resulting in a decrease in long-term liabilities.
- Total governmental activity revenues increased to \$22,950,652 in fiscal year 2014, up from \$22,529,272 in fiscal year 2013, an increase of approximately 1.9%. Total governmental activity expenses decreased to \$20,504,062 in fiscal year 2014, down from \$20,661,193 in the year ended June 30, 2013, a decrease of approximately 0.7%.
- Total business-type activity revenues decreased to \$677,437 in fiscal year 2014, down from \$693,479 in fiscal year 2013.

The District's governmental fund financial statements reflect the following:

- Total fund balances of the District's governmental funds increased \$32,967 in fiscal year 2014. This increase included a \$70,396 increase in the general fund, a \$49,201 decrease in the debt service fund and an \$11,772 increase in the nonmajor governmental funds. The increase in the District's general fund balance is the result of lower than expected expenses in the areas of special education and employee benefits during fiscal year 2013-2014.
- The fund balance for all governmental funds at June 30, 2014 was \$3,041,568. Of this amount, \$32,241 was nonspendable; \$425,013 was restricted for debt service; \$38,232 was restricted per donor restrictions and \$2,545,016 remains unassigned.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis are intended to serve as an introduction to the District's basic financial statements. Those basic financial statements are comprised of three components: 1) district-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains information supplementary to the basic financial statements.

District-wide financial statements

District-wide financial statements report information about the Evansville Community School District as a whole, using accounting methods similar to those used by private sector companies.

The *statement of net position* presents financial information on all of the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

EVANSVILLE COMMUNITY SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2014

OVERVIEW OF THE FINANCIAL STATEMENTS (continued)

To assess the overall financial condition of the District, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities should be considered.

The *statement of activities* includes all revenues and expenses of the District, irrespective of when cash is actually received or paid out. The intent of the district-wide statements is to provide a snapshot of the District's net position and to provide an explanation of material changes that occurred since the prior year.

Both of the district-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activity). The governmental activities of the District include the general operations, special education, debt service, and capital project. The District reports nutrition services as a business-type activity.

Fund financial statements

The *fund financial statements* provide detailed information about the District's significant funds rather than the Evansville Community School District as a whole. A fund is an accounting entity with a self balancing set of accounts for recording assets, liabilities, revenues, and expenditures. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the District can be divided into three categories: governmental, proprietary and fiduciary. Table 1 summarizes the various features of each of these funds.

- *Governmental funds*—Most of the District's basic services are included in governmental funds, which focus on (1) cash and other financial assets that can readily be converted to cash and (2) the balances remaining at year-end that are available for funding future basic services. Governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or less financial resources to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information is provided that explains the relationship between them.
- *Proprietary funds*—The District reports nutrition services as a proprietary fund. Proprietary funds provide the same type of information as the district-wide financial statements, only in more detail.
- *Fiduciary funds*—The District serves as a fiduciary for student organizations. The District is also responsible for other assets that can only be used for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. These activities are excluded from the district-wide financial statements because the District cannot use these assets to finance its operations.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements can be found on pages 23-39 of this report.

Other Information

Required supplementary information (RSI) includes a budget to actual comparison that provides readers with information about the accuracy with which management was able to project the District's revenues and expenditures. In addition, the RSI includes information concerning the District's other post employment benefits (OPEB) liability.

DISTRICT-WIDE FINANCIAL STATEMENTS

Statement of Net Position

The District ended its fiscal year with net position of \$5,844,441 of which \$3,802,436 was net investment in capital assets, \$425,013 was restricted for debt service, \$38,232 was restricted by donors, \$32,241 was restricted for inventories, \$70,177 was restricted to school nutrition services and \$1,723,935 was unrestricted. Unrestricted net position represents the amount of discretionary resources that can be used to fund general District operations.

For governmental activities, capital assets decreased due to current year depreciation exceeding current year capital additions. Noncurrent liabilities decreased due to normal scheduled debt payment.

For the business-type activity, capital assets decreased due to current year depreciation exceeding current year capital additions.

DISTRICT-WIDE FINANCIAL STATEMENTS (continued)

The district received 22,950,652 in revenue for the fiscal year 2014. The District relies primarily on property taxes (35.2% of total governmental revenues), and state equalization aid (52.2%) to fund governmental activities. The District received approximately 11.2% in the form of specific use state grants, federal aid and direct fees for services.

Individuals who directly participated or benefited from a program paid 2.1% of the cost. Book and activity fees, admission to athletic events, open enrollment tuition and other fees are included as charges for services.

Federal and state governments subsidized certain programs with grants and awards of \$2,239,967. Operating grants include Title I, IDEA, and Transportation Aid.

Business-Type Activity

Individuals who directly benefited from services paid 59.9% of the cost. Fees charged to students and adults for meals are included as charges for services. Federal and state governments subsidized certain programs with grants of \$271,657. Operating grants include State and National School Lunch Programs.

DISTRICT-WIDE FINANCIAL STATEMENTS (continued)

Table 4 presents the cost of governmental activities. The table reports each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost reflects the financial burden that was placed on the District's taxpayers by each of these functions.

The cost of all governmental activities this year was \$20,530,024. Individuals who directly participated or benefited from a program offering paid for \$482,835 of costs. Federal and state governments subsidized certain programs with grants and contributions of \$2,092,871. The net cost of governmental activities (\$17,928,356) was financed by \$8,129,643 of property taxes and \$12,122,481 of federal and state unrestricted aid.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances in spendable resources. Such information is useful in assessing the District's financing requirements. Unassigned fund balances or lack thereof, may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The District completed the year with a total governmental fund balance of \$3,041,568, up from last year's ending fund balance of \$3,008,600. The District's unassigned fund balance, available for spending at the district's discretion was \$2,547,021.

Proprietary funds

The District's proprietary funds provide the same type of information found in the District-wide financial statements, but in more detail. The District completed the year with restricted net position of \$70,177, down from last year's ending restricted net position of \$90,035. Other factors concerning the finances of this fund have already been addressed in the discussion of the District's business-type activity.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the June 30, 2014, the District had \$38,788,239 in capital assets for its governmental and business-type activity, including land, buildings, furniture and equipment. Total accumulated depreciation on these assets was \$15,789,515. Asset acquisitions for governmental activities totaled \$463,618. The District recognized depreciation expense of \$782,421. Detailed information about capital assets can be found in Note 4 to the financial statements.

Long-term Debt

At June 30, 2014, the District had \$18,225,000 in general obligation debt outstanding—a decrease of \$2,070,000 from fiscal year 2013. Debt of the District is secured by a tax levy adopted by the school board at the time of issuance. Wisconsin statutes require that the first property tax receipts be segregated for annual debt service payments. No significant debt additions were entered into during the year. Detailed information about the District's long-term obligations is presented in Note 6 to the financial statements.

GENERAL FUND BUDGETARY HIGHLIGHTS

While the District's original budget for the general fund anticipated that revenues and other financing sources would exceed expenditures by \$165,483, the actual results for the year ended June 30, 2014 had revenues and other financing sources in excess of expenses by \$70,396. The most significant change to the budget included \$162,000 expenses approved by the School Board after the budget was approved for employee salary increases.

MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2014

FACTORS BEARING ON THE DISTRICT'S FUTURE

During the 2013-2014 fiscal year, significant decisions were made by the School Board to prepare the District for the future. A comprehensive process was started and completed to study the creation of a 4-year-old Kindergarten program. The process concluded with Board approval to begin a new 4K program for the 2015-2016 school year. The District will apply for all available program grants to offset start-up expenses. Other new programs that were implemented this last year include joining the JEDI consortium allowing the District to offer online educational programming for grades K-12 and the creation of an on-site alternative education program for high school students. Adding the additional programs contributed to a positive change in District enrollment for the 2014-2015 school year after several years of declining enrollment.

In addition to increasing educational opportunities, the District began a process to study the possibility of asking local taxpayers for additional funding. A Citizens Advisory Committee was formed. A community survey was developed and implemented to collect opinion. A comprehensive communication plan followed to engage, educate and empower community members to participate in the referendum process. This resulted in the School Board passing two resolutions to ask taxpayers for an additional \$4.56 million in funding over the next five years. The funds will be used to improve District technology and curriculum and maintain facilities.

EVANSVILLE COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Evansville Community School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing accounting and financial reporting principles.

Reporting Entity

The Evansville Community School District operates as a common school district under Chapter 120 of the Wisconsin Statutes. The District is governed by a seven member elected school board, provides elementary, secondary, vocational, and special education services for kindergarten through grade 12, and is comprised of all or parts of eight taxing districts.

As discussed in the detail below, the financial reporting entity consists of the primary government, and organizations for which the primary government is financially accountable. All of the accounts of the District comprise the primary government.

This report includes all of the funds of the District. The reporting entity for the District consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. If a primary government appoints a voting majority of an organization's officials or if the organization is fiscally dependent on the primary government and there is a potential for those organizations either to provide specific financial benefits to, or to impose specific financial burdens on, the primary government, the primary government is financially accountable for those organizations. An organization has a financial benefit or burden relationship with the primary government if, for example, any one of these conditions exists. The primary government may be financially accountable if an organization is fiscally dependent on the primary government. The report does not contain any component units.

Basis of Presentation

District-wide Financial Statements

The statement of net position and statement of activities present financial information about the District as a whole. They include all funds of the District except for fiduciary funds. Governmental activities, which are supported by taxes and intergovernmental revenues, are reported separately from the business-type activity, which relies on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The District does not allocate indirect expenses. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

EVANSVILLE COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxes and other items not properly included among program revenues are reported instead as general revenues.

As a general rule, the effect of interfund activity has been eliminated from the district-wide financial statements.

Fund Financial Statements

The fund financial statements provide information about the district's funds, including the fiduciary funds. Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the district-wide financial statements. The emphasis of fund financial statements is on the major governmental funds; each is displayed in a separate column. All remaining funds are aggregated and reported as nonmajor governmental funds.

The District reports the following major governmental funds:

General Fund

The general fund is the general operating fund of the District and is always classified as a major fund. The general fund is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service Fund

Debt service fund is used to account for financial resources to be used for the accumulation of resources for, and the payment of general long-term debt principal, interest, and related costs.

The District reports the following major proprietary fund

School Nutrition Services Fund

The School Nutrition Services fund is used to account for the districts food service, generally the school breakfast and lunch programs.

The District reports the following nonmajor governmental funds:

Capital Projects Fund

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

Special Revenue Funds

Special revenue funds are used to account and report the proceeds of specific revenue sources (other than major capital projects) that are restricted or committed to expenditures for specific purposes. The District reports the Special Revenue Gift Fund and the Community Service Fund and Co-operative Program as special revenue funds.

EVANSVILLE COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Additionally, the District reports the following fund types:

Private-Purpose Trust Fund

Private-purpose trust funds are used to account for resources legally held in trust for student scholarships.

Agency Fund

Agency funds are used to account for assets held by the District as an agent for individuals, private organizations, and/or other governmental units.

Measurement Focus and Basis of Accounting

The district-wide and fiduciary fund statements (excluding the agency funds) are presented using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded at the time liabilities are incurred regardless of the timing of the related cash flows.

Non-exchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the tax is levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 90 days of the end of the current fiscal year. Expenditures generally are recorded when the liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, and compensated absences are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principle ongoing operation. The principle operating revenue is charges to students for meals. Operating expenses for proprietary funds include the cost of sales, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

EVANSVILLE COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical funds, and general revenues. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the District's policy to first apply cost-reimbursement resources to such programs, followed by general revenues.

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

Cash and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. Cash and investment balances for individual funds are pooled unless maintained in segregated accounts.

The District may invest available cash balances, other than debt services funds, in time deposits of authorized depositories, U.S. Treasury obligations, U.S. agency issues, high grade commercial paper, and the local government pooled investment fund administered by the state investment board. Available balances in the Debt Service Fund may be invested in municipal obligations, obligations of the United States, and the local governmental investment pool.

Receivables and Payables

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. The current portion of lending/borrowing arrangements between funds is identified as due to/from other funds. The noncurrent portion of outstanding balances between funds is reported as advances to/from other funds. At June 30, 2014, there were no outstanding lending arrangements between funds.

Advances between funds are offset by a fund balance reserve account in the applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Property taxes are recognized as revenues in the year for which they are budgeted. Under the Wisconsin Statutes, each County in the District's taxing jurisdiction purchases the outstanding property taxes of the District in August of each year. The statutory guarantee assures the District full collection of all property taxes within sixty days of its year end, and hence, the availability of these funds to finance expenditures of the fiscal year for which the taxes were levied. Property taxes are levied in October on the assessed value as of the prior January 1, and are due in full by January 31, or in installments with the last payment due in July.

Accounts receivable are recorded at gross amounts with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided in the governmental funds since it is believed that the amount of such allowance would not be material to the financial statements.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Inventories and Prepaid Items

Inventories are recorded at cost based on the first-in, first-out method using the consumption method of accounting. Inventories in the governmental fund types are recorded as expenditures when consumed rather than when purchased. Donated United States Department of Agriculture (USDA) commodities are recorded as revenues and assets in the school nutrition services at the fair value when originally donated by the USDA. When used by the schools, the commodities are expensed and the related assets are reduced.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the district-wide and the fund financial statements.

Capital Assets

Capital assets are reported at historical cost or estimated historical cost. Capital assets are defined by the District as assets with an initial individual cost of \$5,000. Donated assets are recorded at the estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's useful life are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Site improvements	20
Buildings	45
Furniture and equipment	5-20
Computer and related technology	5

Deferred Outflows/Inflows of Resources

In addition to assets, the balance sheet will report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has no qualifying deferred outflows as of June 30, 2014.

In addition to liabilities, the balance sheet will report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has no qualifying deferred inflows as of June 30, 2014.

Compensated Absences and Other Employee Benefit Amounts

District employees are granted vacation and sick leave benefits in varying amounts in accordance with district policies. In the event of retirement, death or resignation of an employee, the District is obligated to pay for all unused sick leave up to a maximum vested amount of 110 days or contribute to a non-elective tax shelter annuity through the Wisconsin Educators Association, depending on the class of employee and years of service. All vacation pay and sick pay is accrued when incurred in the district-wide financial statements. A liability for sick leave is reported in the governmental funds only if they have matured, for example, as a result of employee resignations or retirements. Vacation pay does not vest.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Long-Term Obligations

In the district-wide financial statements, bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Claims and Judgments

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditures for claims and judgments are only reported in the governmental funds if it has matured. Claims and judgments are recorded in the district-wide statements as expense when the related liabilities are incurred. There were not significant claims or judgments at year end.

Net Position

In the district-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets—Consists of capital assets including restricted capital assets, net of accumulated depreciation less the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets plus unspent proceeds.

Restricted Net Position—Consists of net position with constraints placed on use by 1) external groups such as creditors, grantors, or contributors, or 2) law through constitutional provisions or enabling legislation.

Unrestricted Net Position—All other net position that do not meet the definition of “restricted” or “net investment in capital assets.”

Fund Balance

Governmental fund equity is classified as fund balance. In the fund financial statements, fund balance is presented in five possible categories:

Nonspendable—Amounts that cannot be spent because they are either (a) not in a spendable form or (b) legally or contractually required to be maintained intact. This classification includes inventories, prepaid items, assets held for resale, and long term receivables.

Restricted—Constraints placed on the use of resources are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Committed—Resources that can only be used for specific purposes as the result of a formal action of the District's highest level of decision-making authority. Any changes in the constraints imposed require the same formal action of the District that originally created the commitment.

Assigned—Resources that are neither restricted nor committed for which the District has stated intended use as established by the School Board.

Unassigned—Resources that are available for any purpose. Unassigned amounts are only reported in the general fund.

Use of Restricted Resources

The District considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal constraints that prohibit doing this. Additionally The District considers amounts to be spent first out of committed amounts, then assigned and lastly unassigned amounts of restricted fund balance when expenditures are made.

Budgetary Information

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described on page 24.

Operating budgets are adopted each fiscal year for all governmental funds in accordance with Section 65.90 of the Wisconsin Statutes. The budgeted amounts presented include amendments adopted during the year. Transfers between functions and changes to the overall budget must be approved and amended by School Board resolution. Appropriations lapse at year end unless specifically carried over.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures.

NOTE 2—CASH AND INVESTMENTS

Generally, the District is limited to investments authorized by Wisconsin State Statute 66.0603 including the following:

1. Time deposits in any credit union, bank, savings bank, trust company, or savings and loan association which is authorized to transact business in the state if the time deposits mature in not more than three years.
2. Bonds or securities issued or guaranteed as to principal and interest by the federal government, or by a commission, board, or other instrumentality of the federal government.

NOTE 2—CASH AND INVESTMENTS (continued)

3. Bonds or securities of any county, city, drainage district, technical college district, village, town, or school district of the state, as well as bonds issued by a local exposition district, a local professional baseball park district, a local professional football stadium district, the University of Wisconsin Hospitals and Clinics Authority, a local cultural arts district, or the Wisconsin Aerospace Authority.
4. Any security which matures or which may be tendered for purchase at the option of the holder within not more than seven years of the date on which it is acquired, if that security has a rating which is the highest or second highest rating category assigned by Standard & Poor's corporation, Moody's investors service, or other similar nationally recognized rating agency or if that security is senior to, or on a parity with, a security of the same issuer which has such a rating.
5. Securities of an open-end management investment company or investment trust, with certain limitations:
 - a. Bonds or securities issued under the authority of the municipality;
 - b. The local government pooled-investment fund as established under Section 25.50 of the Wisconsin Statutes; the state of Wisconsin local government investment fund (LGIP)
 - c. Agreements in which a public depository agrees to repay funds advanced to it by the District, plus interest, if the agreement is secured by bonds or securities issued or guaranteed as to principal and interest by the federal government.
 - d. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
 - e. Repurchase agreements with public depositories, with certain conditions.

As of June 30, 2014, cash and investments consist of the following:

	Fair Value	Carrying Value	Risk
Cash on hand	\$ 1,389	\$ 1,389

NOTE 2—CASH AND INVESTMENTS (continued)

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation. To limit credit risk, the District is limited to investments authorized by Wisconsin State Statute 66.0603. The District has adopted an investment policy which permits all investment authorized under state statutes as described on pages 29-30.

Interest Rate Risk

Interest rate risk is the risk that the fair value of the District's investments will decrease as a result of an increase in interest rates. The longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure of fair value losses arising from increasing interest rates. As of June 30, 2014, money market and Wisconsin Local Government Investment Pool (LGIP) investments have a maturity of 12 months or less.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District would not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District would not be able to recover the value of investments that are in the possession of another party. The District does not have a custodial credit risk policy for investments.

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for interest bearing accounts and unlimited for non-interest bearing accounts. Bank accounts and the local government investment pool are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the relatively small size of the Guarantee Fund in relationship to the total deposits covered and other legal implications, recovery of material principal losses may be significant to individual organizations. As of June 30, 2014, \$5,553,028 of the District's deposits with financial institutions was uninsured and uncollateralized. The District does not have a custodial risk policy for deposits.

The District voluntarily invests excess funds in the LGIP, an external investment pool. The LGIP is part of the State Investment Fund (SIF) and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. The SIF is not rated. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At June 30, 2014 the fair value of the District's share of the LGIP's assets was substantially equal to the amount reported on page 30.

Concentration of Credit Risk

The District does not have a policy for concentration of credit risk. No District investment represents 5% or more of the total investments.

NOTE 6—LONG-TERM OBLIGATIONS (continued)

In prior years, the District defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for the future debt service payments on the old bonds. Accordingly the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2014, \$17,445,000 of bonds outstanding are considered defeased.

NOTE 7—EMPLOYEE'S RETIREMENT SYSTEM

All eligible District employees participate in the Wisconsin Retirement System (WRS), a cost-sharing, multiple-employer, defined benefit, public employee retirement system. All employees, initially employed by a participating WRS employer prior to July 1, 2011, expected to work at least 600 hours a year (440 hours for teachers and school educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year (880 hours for teachers and school educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS. Note: Employees hired to work nine or ten months per year (e.g. teachers contracts), but expect to return year after year are considered to have met the one-year requirement.

Effective the first day of the first pay period on or after June 29, 2011 the employee required contribution was changed to one-half of the actuarially determined contribution rate for General category employees including teachers, and executives and elected officials. Required contributions for protective occupations are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement. Contribution rates for 2013 are:

	Employee	Employer
General (including teachers)	6.65%	6.65%
Executives and elected officials	7.00%	7.00%
Protective with Social Security	6.65%	9.75%
Protective without Social Security	6.65%	12.35%

The payroll for District employees covered by the WRS for the year ended June 30, 2014 was \$10,667,256; the employer's total payroll was \$11,596,672. The total required contribution for the year ended June 30, 2014 was \$1,460,283, which consisted of \$730,141, or 6.3% of payroll from the District and \$730,141, or 6.3% of payroll from employees. Total contributions for the years ended June 30, 2013 and 2012 were \$1,383,398 and \$1,306,756, respectively, equal to the required contributions for each year.

Employees who retire at or after age 65 (62 for elected officials and 54 for protective occupation employees with less than 25 years of service, 53 for protective occupation employees with more than 25 years of service) are entitled to receive a retirement benefit. Employees may retire at age 55 (50 for protective occupation employees) and receive actuarially reduced benefits. The factors influencing the benefits are: (1) final average earnings, (2) years of creditable service, and

(3) a formula factor. A final average earnings is the average of the employee’s three highest years’ earnings. Employees terminating covered employment and submitting application before becoming eligible for retirement benefits may withdraw their contributions and, by doing so, forfeit all rights to any subsequent benefit. For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998 and prior to July 1, 2011 are immediately vested. Participants who initially become WRS eligible on or after July 1, 2011 must have five years of creditable service to be vested.

The WRS also provides death and disability benefits for employees. Eligibility and the amount of all benefits are determined under Chapter 40 of the Wisconsin Statutes.

The WRS issues an annual financial report that may be obtained by writing to the Department of Employee Trust Funds, P.O. Box 7931, Madison, WI 53707-7931.

NOTE 8—OTHER POST-EMPLOYMENT BENEFITS

The District provides other post-employment benefits (OPEB) for its employees through a single-employer retiree benefit plan that provides postemployment health and life insurance benefits to eligible employees and their spouses. There are 207 active and 27 retired members in the plan as of June 30, 2014. Benefits and eligibility are established and amended by the governing body.

Funding Policy. The District does not have invested plan assets accumulated for payment of future benefits. The District’s policy is to fund other post-employment benefits on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation. The District’s annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The following table shows the components of the District’s annual OPEB cost for the year, the amount actually paid from the plan, and changes in the District’s net OPEB obligation.

Annual required contribution	\$ 172,913
Interest on net OPEB obligation	39,211
Adjustment to annual required contribution	<u>(39,085)</u>
Annual OPEB cost (expense)	173,039
OPEB payments made	<u>(443,201)</u>
Increase in net OPEB obligation	(270,162)

NOTE 8—OTHER POSTEMPLOYMENT BENEFITS (continued)

The District's annual OPEB costs, the percentage of the annual OPEB cost contributed to the plan, and the net OPEB obligation for June 30, 2014 and the preceding two years was as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2014	\$ 173,039	256.13%	\$ 717,513
6/30/2013	173,070	243.06%	987,675
6/30/2012	599,031	71.89%	1,235,262

Funded Status and Funding Progress. As of July 1, 2012, the most recent actuarial valuation date, the District's actuarial accrued liability (AAL) for benefits was \$2,066,587 and the actuarial value of assets was \$5,096 resulting in an unfunded actuarial accrued liability (UAAL) of \$2,061,489. The annual payroll for active employees covered by the plan in the actuarial valuation for the 2011-12 fiscal year was \$9,727,649 for a ratio of the UAAL to covered payroll of 21.19%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trends. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2012, actuarial valuation, the unit credit actuarial cost method was used. The actuarial assumptions included a 3.97 percent investment rate of return and an initial annual healthcare cost trend rate of 10 percent, reduced by decrements to an ultimate rate of 5 percent. Both rates include a 4 percent inflation assumption. The UAAL is being amortized on a level dollar basis. The remaining amortization period at June 30, 2012 was 30 years.

NOTE 11—LIMITATION OF SCHOOL DISTRICT REVENUES

Wisconsin statutes limit the amount of revenues that school districts may derive from general school aids and property taxes. The annual revenue increase from these sources is limited to an allowable per member increase which is determined by the legislature. This limitation does not apply to revenues needed for the payment of any general obligation debt service (including refinanced debt) authorized by either of the following:

- A resolution of the school board or by a referendum prior to August 12, 1993.
- A referendum on or after August 12, 1993.

NOTE 12—RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; error and omissions; worker compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded insurance coverage in any of the last three years. There were not significant reductions in coverage compared to the prior year.

NOTE 13—COMMITMENTS AND CONTINGENCIES

From time to time the District is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the District's legal counsel that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the District's financial position.

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

NOTE 14—PRIOR PERIOD ADJSUTMENT

The Government Accounting Standards Board (GASB) issued Statement No. 65, Items Previously Reported as Assets and Liabilities (GASB 65). Under GASB 65 debt issuance costs are no longer recorded as an asset and amortized over the life of the related debt issue. Debt issuance costs are now expensed in the current period. As a result, an adjustment of \$178,241 was made to decrease the June 30, 2013 net position of the Government Activities on the statement of activities and to decrease assets by eliminating deferred loan costs.

NOTE 15—EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT-PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has issued GASB Statement No. 68, Accounting and Financial Reporting for Pensions - An Amendment of GASB Statement No. 27. The statement will require the District to disclose their net pension liability on their statement of net position, effective for the year ending June 30, 2015. GASB Statement No. 68 defines the liability as the difference between the total pension liability and the value of assets set aside to pay benefits. The Wisconsin Retirement System (WRS) will allocate the net pension liability to all employers based on their proportionate share of the employer contributions using a measurement date no earlier than the end of the District's prior fiscal year. This statement may have a material effect on the District's pension liability compared to what is disclosed under current standards.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2014

NOTE 1—BUDGETARY INFORMATION

Budgetary information is derived from the annual operating budget and is presented using generally accepted accounting principles and the modified accrual basis of accounting as described in Note 1 of the financial statements. Reported budget amounts are as amended by School Board resolution. Budgets are adopted at the function level in the general fund and at the fund level for all other funds. Appropriations lapse at year end unless specifically carried over.

Excess Expenditures Over Appropriations

The following general fund functions had an excess of actual expenditures over appropriations for the year ended June 30, 2014.

<u>Function</u>	<u>Excess Expenditures</u>
Instruction	\$ 709,870

NOTE 2—FUNDING PROGRESS DATA

The data presented in the Schedule of Funding Progress was taken from the reports issued by the actuary.

The District is required to present information for the pension and other postemployment benefit plans for the three most recent actuarial studies. Two have been completed to date. Duplicate information for intervening years is not repeated.

EVANSVILLE COMMUNITY SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AND STATE AWARDS
Year Ended June 30, 2014

NOTE 1—BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal and state awards includes the federal and state grant activity of the District under programs of the federal government and state agencies for the year ended June 30, 2014. The information in this schedule is presented in accordance with requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-profit Organizations*, and the *State Single Audit Guidelines*. Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Specifically, debt service expenditures, as well as expenditures related to claims and judgments, and compensated absences are recorded only when payment is due. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Costs Principles for State, Local and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available. The Wisconsin Department of Public Instruction uses the federal CFDA numbers as the pass-through entity identifying numbers.

NOTE 3—FOOD DONATION

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. At June 30, 2014, there were no commodities in inventory at the District.

NOTE 4—OVERSIGHT AGENCIES

The District's federal oversight agency for audit is the U.S. Department of Education. The District's state cognizant agency is the Wisconsin Department of Public Instruction.

NOTE 5—ELIGIBLE COSTS FOR SPECIAL EDUCATION

Eligible costs for special education under project 011 were \$2,917,289 for the year ended June 30, 2014.

EVANSVILLE COMMUNITY SCHOOL DISTRICT
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
Year Ended June 30, 2014

Material weaknesses

2013-1 Internal control over disbursements

Condition: Documentation for nine expenditures did not include a program manager's signature indicating review and approval of the expenditure.

Recommendation: The District should reiterate and enforce internal controls and procedures over disbursements.

Current Status: This finding has been resolved.

2013-2 Special Education Cluster (IDEA) - CFDA Nos. 84.027 and 84.173

Condition: Documentation for nine of our sample of forty expenditures charged to the Special Education Cluster did not include evidence of review and approval by the program director.

Recommendation: The district should reiterate and enforce internal controls and procedures over disbursements.

Current Status: This finding has been resolved.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the School Board
Evansville Community School District
Evansville, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Evansville Community School District (District), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 1, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal and Major State Program

We have audited Evansville Community School District's (District's) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* and the *State Single Audit Guidelines* that could have a direct and material effect on each of the District's major federal and major state programs for the year ended June 30, 2014. The District's major federal and major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and the *State Single Audit Guidelines*. Those standards, OMB Circular A-133, and the *Guidelines* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or major state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and major state program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal and Major State Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and major state programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and major state program to

determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and major state program and to test and report on internal control over compliance in accordance with OMB Circular A-133 and the *State Single Audit Guidelines*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133 and the *State Single Audit Guidelines*. Accordingly, this report is not suitable for any other purpose.
